”

BRAND DNA –

UNION OF

ADVANCED TECHNOLOGIES AND

MODERN DESIGN

”

BEGINNING

In 2010 MontCarotte introduced the world's
first innovative dental cosmetics .
A new niche in detailed oral care -
SMART LUXE, where technology
and modern design
interact.

Bright up your life

Give a new experience, new rituals.
Turn everyday life into a holiday.
Provide safe, optimal and enjoyable home care.

MONCAROTE'S PHILOSOPHY

”

AWARENESS OF

CHOICE DEFINES WHAT YOUR DAY WILL

BE

”

PRODUCTION

is based in the EU countries and South Korea. Formulas are developed by specialists of the pharmaceutical laboratory under the leadership of Dr. Ettore Thallia, M.D., a guru in the field of organic chemistry

Bright up your life

BEST TECHNOLOGIES + UNIQUE FORMULA = QUALITY GUARANTEED

PRODUCT CONCEPT
ONE PRODUCT - ONE FOCUS

FORMULA SUCCESS STORY

The highest concentration of active agents in 30 ml tubes. This volume ensures formula stability without using any aggressive or artificial stabilizers and preservatives.

Bright up your life

HIGH TECH

”
UNIQUE PACKAGING -
IS A GUARANTEE OF
EFFECTIVENESS.
ACTUATORS - HELP TO
USE EXACT AMOUNT
OF TOOTHPASTE

Bottles fitted with an actuator and flexible diaphragm help to control the amount used with milliliter accuracy. Thanks to a difference in pressure, which is created by pressing on the actuator, the contents are lifted upwards towards the dispensing apparatus, separating it from the rest of the depleted container. As a result all the contents are used down to the last drop.

”

S M A R T

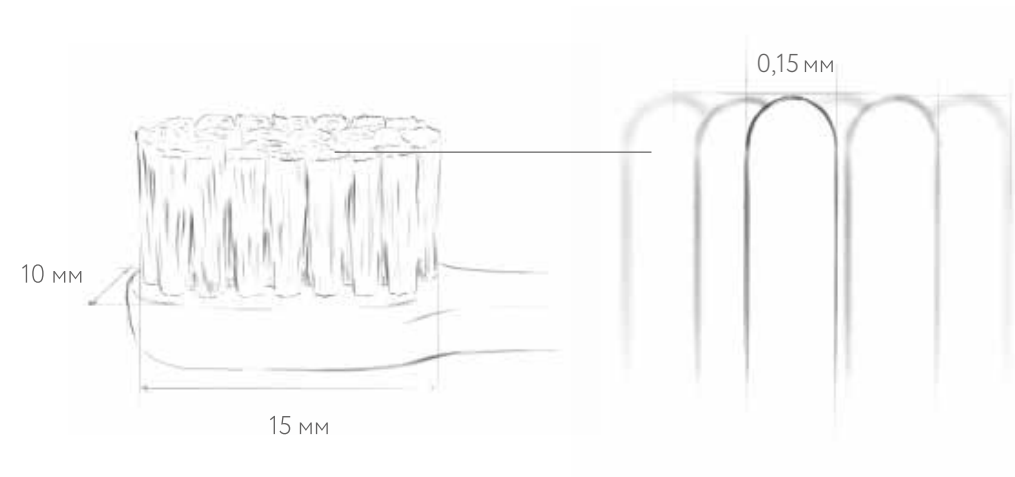

B R I S T L E

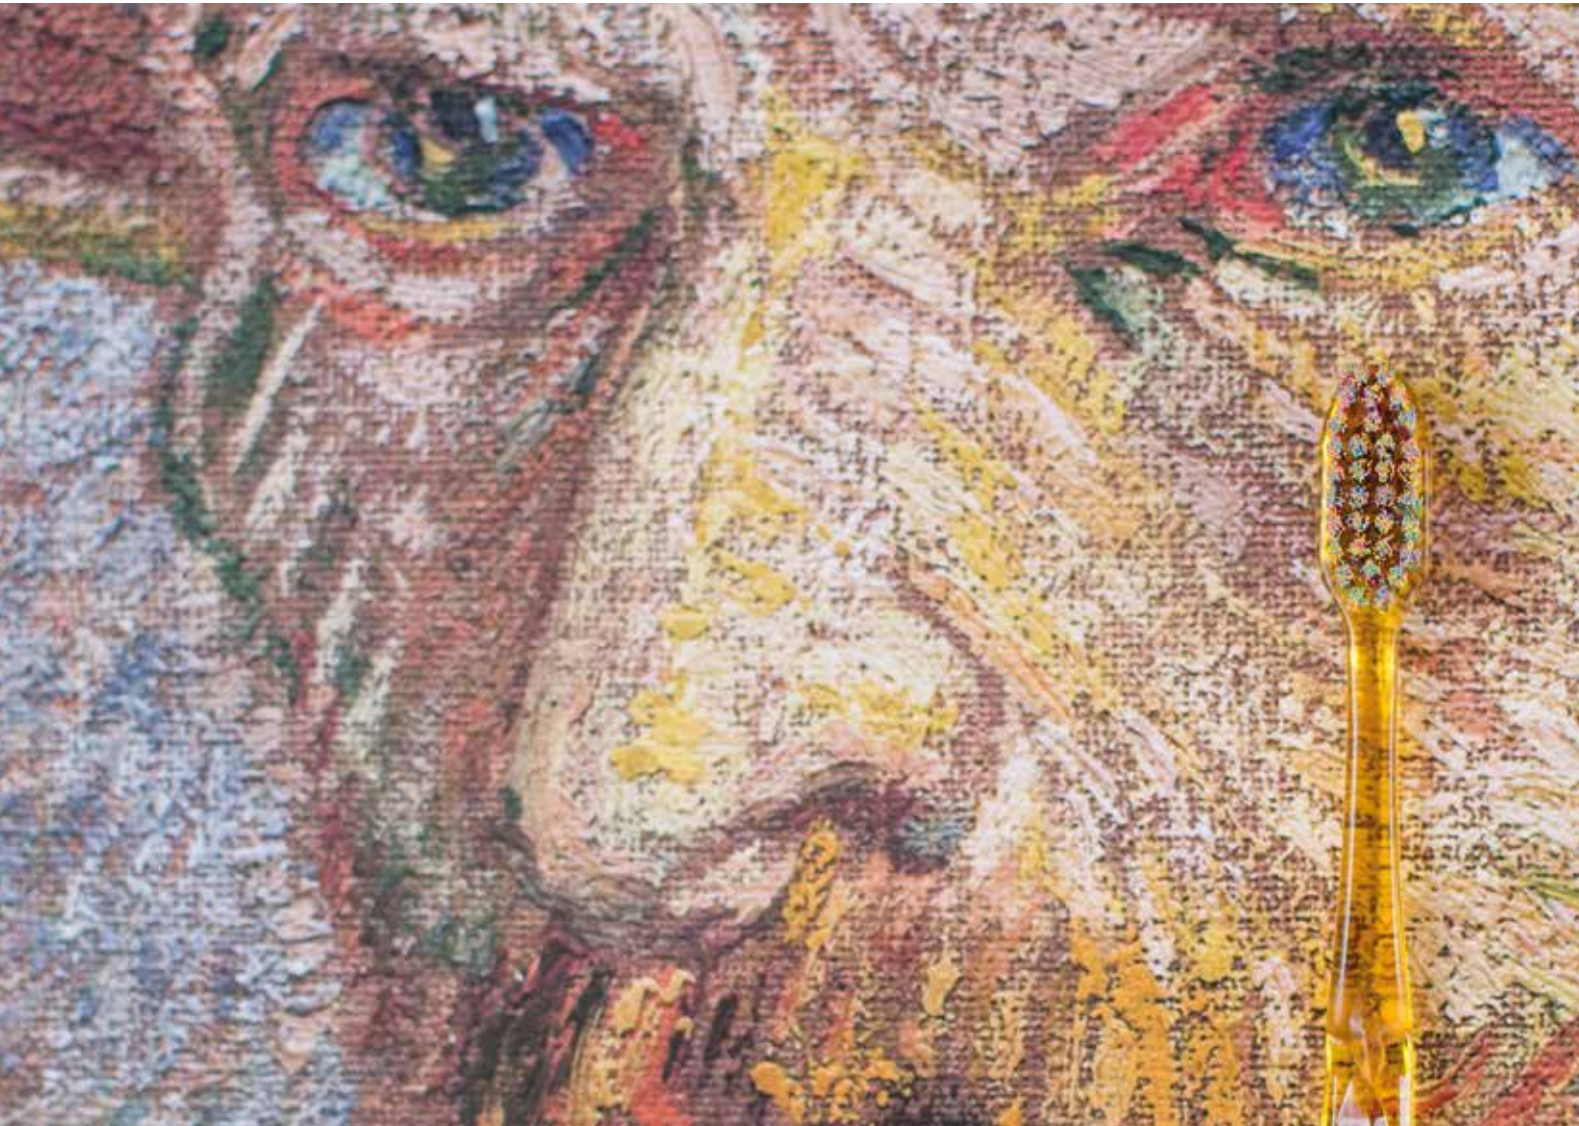

”

Bristles have optimum rigidity (0.15 mm thickness) and do not irritate gums.
The handle made of durable scratch-free plastic keeps its initial appearance during the whole period of usage.
The ideal head size and the handle balance in its lower part insure the proper brushing technique.

H I G H T E C H

SCIENTIFIC APPROACH: Scientifically advanced MontCarotte brushes fiber is produced from the high-tech material polyamide. Every bristle tip is perfectly rounded. "Smart bristle" does not absorb water, minimizing the risk of the milieu bacterial emerging; it is resistant to the deformation and serves three times longer.

KNOW-HOW MONTCAROTTE

The philosophy of the toothbrush is to give
birth of beauty

IMPRESSION BRUSH COLLECTION

Creating a new dental care accessory for the beauty and health of your smile we drew inspiration from the artists of the most popular Impressionist era: Pierre-Auguste Renoir, Edouard Manet, Vincent van Gogh and Edgar Degas.

We invite you to an amazing world where you can create a masterpiece - your smile!

ABSTRACTION BRUSH COLLECTION

The simplicity of shapes and the associative properties of color became the inspiration for the creation of a new collection of dental brushes dedicated to abstract artists.

KIDS DENTAL TOOTHBRUSH

"Smart bristle" does not absorb water.
Safes the shape. Perfectly polishes the
enamel surface.

Effectively, perfectly cleans.
0.15 mm - optimal fiber thickness

The special height of the bristles, equal to
7.6 mm, makes them effective and totally
safe during the brushing.

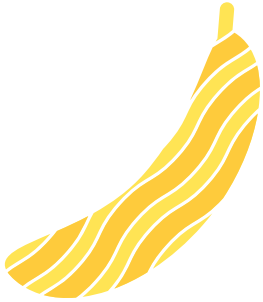

The brush head of ideal shape allows
cleaning well both baby teeth and molars of
bigger size.

S A F E T Y

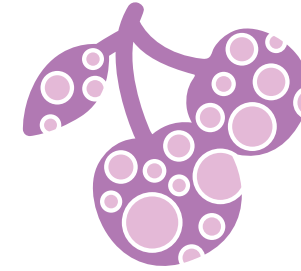

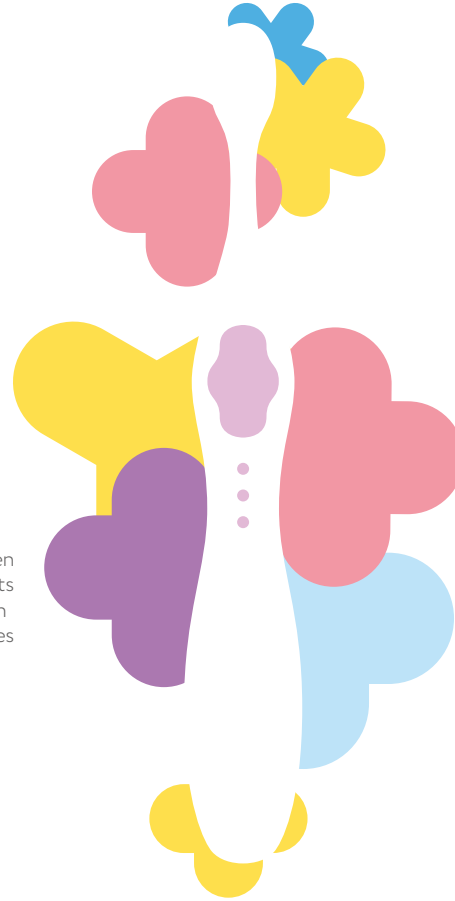

MontCarotte Kids tooth gels Collection is organic, delicious and full of flavor, it protects your child's milk teeth and nurtures the growth of strong and healthy teeth into the future.

The increased adhesiveness of the children's tooth gel allows it to stay longer on the surface of the teeth, thereby protecting them from plaque throughout the day.

Fluoride and calcium strengthen the enamel. Xylitol protects against dental caries. Vitamin E cares for tender gums, soothes and relieves inflammation.

Does not contain: Parabens, Silicones, Sodium Lauryl Sulfate, Antiseptics (Triclosan), Artificial colorants, Artificial sweeteners, Artificial preservatives, Artificial thickeners.

Kids gel tubes are safe thanks to Hypoallergenic plastic and a Narrow tube hole which helps to dose correctly. Additional barrier layer protects the composition from exposure to oxygen.

COMFORT

”

COMFORT AND SAFETY

CHILDREN'S TOOTH GEL "PURE"

IS IDEAL FOR THE FIRST TEETH.

SPECIAL CONCEPT. FLUORIDE-FREE.

PERFUME-FREE. MINERALS-FREE.

”

10% xylitol - this concentration provides a reliable protective barrier against cariogenic factors

Very narrow neck - helps to control of tooth gel's amount

SOCIAL MISSION

”

THE BRAND PROMOTES PSYCHOLOGICALLY
ATRAUMATIC AND EFFECTIVE
PEDIATRIC DENTISTRY

”

The brand strives to cooperate with medical institutions that treat children as adults - just as qualitatively and reliably, with clinics that use special technologies (including nitrous oxide-oxygen mask), so that children can receive dental care according to the WORLD STANDARDS.

TOOTH CREAMS COLLECTION

TOOTH PEELING

Smoothing and brightening tooth
Peeling
12+

Tooth peeling gel with cellulose (paper pump) granules, ensures deep cleaning without changing the composition of the tooth enamel. Peeling gel cleans effectively, effectively, unifies the colour of the teeth and removes efficiently the tooth plaque. To be used one or two times a week as the main tooth care or as additional product mixed with your everyday toothpaste. Highly recommended as a regular supporting home care for composite veneers, porcelain veneers, restored teeth. Free of coarse abrasives, peroxides, aggressive acids, parabens, silicones, SLS, any agents irritating oral cavity mucous.

INGREDIENTS

Aqua, Sorbitol, Hydrated Silica, Glycerin, Dicalcium Phosphate, Cellulose Gum, Sodium Lauroyl Sarcosinate, Cellulose Acetate, Sodium Fluoride (1450 ppm Fluoride), Sodium Benzoate, Sodium Saccharin, Aroma, Citric Acid, RDA 90.

SENSITIVITY RELIEF CREAM

Soothing tooth sensitivity
mask Relief
6+

Tooth cream-mask with a high concentration of hydroxyapatite (10%) restores tooth enamel. Hydroxyapatite's particles fill directly into the enamel structure restoring it without changing the composition of the enamel. The tooth mask is designed as a daily use dental care, especially targeting hypersensitive teeth. In addition, recommended as a recovering home treatment after in-office cleaning and bleaching procedures. Free of coarse abrasives, peroxides, aggressive acids, parabens, silicones, SLS, any agents irritating oral cavity mucous.

INGREDIENTS

Aqua, Hydrated Silica, Sorbitol, Hydroxyapatite, Disodium Pyrophosphate, Cellulose Gum, Sodium Lauroyl Sarcosinate, Aroma, Disodium Phosphate, Sodium Fluoride (1450 ppm Fluoride), Sodium Saccharin, Sodium Benzoate, Citric Acid C.I. 77891, C.I. 77491, C.I. 17200, RDA 20.

TENDERLY WHITENIN TOOTH CREAM

Tenderly whitening tooth
cream
12+

The cream has delicate whitening properties due to the accumulation of titanium dioxide white pigment (CI 7100) on the tooth surface. Does not change the tooth enamel structure; does not cause tooth sensitivity. Suitable for daily use, especially recommended after in-office dental hygiene. Free of coarse abrasives, peroxides, aggressive acids, parabens, silicones, SLS, any agents irritating oral cavity mucous.

INGREDIENTS

Aqua, Sorbitol, Hydrated Silica, Dicalcium Phosphate, Propylene Glycol, Disodium Pyrophosphate, Cellulose Gum, Sodium Lauroyl Sarcosinate, Aroma, Disodium Phosphate, Sodium Fluoride (1450 ppm Fluoride), Sodium Saccharin, Sodium Benzoate, Phenoxyethanol, C.I. 77891, Citric Acid, Limonene, RDA 50.

TOOTH CREAMS COLLECTION

DIAMOND BRIGHTENING TOOTH CREAM VANILLA ORCHID

**Diamond brightening tooth cream
Vanilla orchid
12+**

Diamond Brightening Tooth Cream Vanilla Orchid contains Vanilla Planifolia pods extract, capable to catalyse metabolic processes in cells cytoplasm and stimulate natural regrowth of oral cavity mucous membrane.

New formula ensures a perfectly polished tooth surface due to Hydrated Silica, its active ingredient. In addition, Potassium Nitrate rapidly relieves the sensitivity of the teeth and restores the tooth enamel.

The texture of the cream with delicate Vanilla scent leaves a scent of freshness and cleanliness on the smooth and shiny diamond-clean tooth surface.

Elegant jar, designed by using AIRLESS technology, guarantees the sterility of the ingredients during its entire lifetime. Besides, the AIRLESS technology allows to add into the formula some special ingredients, which are sensitive to light and oxygen. Long lifetime: 24 months.

FREE OF abrasives, aggressive thickeners, stabilizers and preservatives.

INGREDIENTS

Aqua, Sorbitol, Hydrated Silica, Glycerin, Potassium Nitrate, Cellulose Gum, Sodium Lauroyl Sarcosinate, Aroma, Titanium Dioxide (C.I. 77891), Sodium Fluoride, Sodium Benzoate, Sodium Saccharin. Contains Sodium Fluoride (1450 ppm Fluoride), Fluor - 0,15%.

PLATINUM BRIGHTENING TOOTH GEL

**Platinum brightening
tooth gel
12+**

Whitens the enamel to the natural colour of the teeth. Safely removes color-colouring tooth plaque. Its active ingredient, White Lime juice - natural acid with low PH (4, 5) ensures solid and long-lasting whitening effect. Coriander neutralises bacteria causing offensive odours. Lemongrass essential oil, dissolving steadily, keeps the breath fresh up to six hours.

Pentasodium triphosphate blocks the plaque and keeps the enamel clean for a long time. Elegant jar, designed by using AIRLESS technology, guarantees the sterility of the ingredients during its entire lifetime. Besides, the AIRLESS technology allows to add into the formula some special ingredients, which are sensitive to light and oxygen. Long lifetime: 24 months.

FREE OF abrasives, aggressive thickeners, stabilisers and preservatives.

INGREDIENTS

Aqua, Sorbitol, Hydrated Silica, Potassium Nitrate, Glycerine, Sodium Lauroyl Sarcosinate, Aroma, Sodium Fluoride, Sodium Saccharin, Sodium Benzoate, CI77891. Contains Sodium Fluoride (1450 ppm Fluoride), Fluor - 0,15%.

ANTI - AGE WHITENING PROGRAM

**Anti - age
Whitening program
12+**

The tooth enamel and the oral cavity weekly care routine with whitening and anti-aging focus. The safest whitening programme. It mildly and gradually changes one or two tooth colour shades, which is close to the natural colour of the teeth, with three great dental products: Tooth Gel peeling for cleaning effect, Desensitizing Tooth Mask for recovering purpose, Tenderly Whitening cream - for bleaching result. Highly recommended to be used after in-office hygienic and whitening procedures. Free of coarse (harsh) abrasives, peroxides, aggressive acids, parabens, silicones, SLS, any agents irritating oral cavity mucous.

INGREDIENTS

Aqua, Sorbitol, Hydrated Silica, Glycerin, Dicalcium Phosphate, Cellulose Gum, Sodium Lauroyl Sarcosinate, Cellulose Acetate, Sodium Fluoride (1450 ppm Fluoride), Sodium Benzoate, Sodium Saccharin, Aroma, Citric Acid, RDA 90. Aqua, Sorbitol, Hydrated Silica, Dicalcium Phosphate, Propylene Glycol, Disodium Pyrophosphate, Cellulose Gum, Sodium Lauroyl Sarcosinate, Aroma, Disodium Phosphate, Sodium Fluoride (1450 ppm Fluoride), Sodium Saccharin, Sodium Benzoate, Phenoxyethanol, C.I. 77891, Citric Acid, Limonene, RDA 50. Aqua, Hydrated Silica, Sorbitol, Hydroxyapatite, Disodium Pyrophosphate, Cellulose Gum, Sodium Lauroyl Sarcosinate, Aroma, Disodium Phosphate, Sodium Fluoride (1450 ppm Fluoride), Sodium Saccharin, Sodium Benzoate, Citric Acid C.I. 77891, C.I. 77491, C.I. 17200, RDA 20.

TOOTHBRUSH COLLECTION

MANET TOOTHBRUSH

Toothbrush «Eduard manet»
Impression Brush Collection

«soft» 0,15mm

Edouard Manet Inspires us with his ability to find the brightness of the moment even in everyday routine, to see the "poetry of the world" on the way to work.

RENOIR TOOTHBRUSH

Toothbrush «pierre Auguste Renoir»
Impression Brush Collection
12+

«soft» 0,15mm

Pierre Auguste Renoir reminds us that nothing is warmer than human relationships and the genuine smile from the bottom of your heart.

DEGAS TOOTHBRUSH

Toothbrush «Edgar Degas»
Impression Brush Collection
12+

«soft» 0,15mm

Edgar Degas inspires us with the desire for perfectionism, reaching a disarming harmony of shapes and colors in his works.

VAN GOGH TOOTHBRUSH

Toothbrush «Van Gogh»
Impression Brush Collection
12+

«soft» 0,15mm

Vincent van Gogh makes us remember that we will be able to understand and appreciate some things from "today" only «tomorrow».

GAUGUIN TOOTHBRUSH

Toothbrush «Paul Gauguin»
Impression Brush Collection
12+

«soft» 0,15mm

Inspires us with incredible joy and delightful painting lightness, as if all our problems are just a bad fleck of paint and it costs nothing to fix it!

High-tech "SMART" bristles are made of POLYAMIDE.

Polyamide does not absorb moisture and retains its shape twice as long as polyester. The «SMART» bristles help to achieve the maximum smooth enamel surface and the desired whiteness. Perfectly rounded bristle fibres thoroughly polish the enamel without irritating the gums. Fiber thickness: 0.15 mm Total number of bristles: 1,200

ABSTRACTION TOOTHBRUSH COLLECTION

MALEVICH TOOTHBRUSH

Toothbrush «Malevich»
Abstraction brush collection
12+
«soft» 0,15mm

In his works, Malevich revealed that the space of simple shapes could be mysterious and complicated: what appears as an infinity to one viewer could be seen as setting the boundaries of reality to another.

KANDINSKY TOOTHBRUSH

Toothbrush «Kandinsky»
Abstraction brush collection
12+
«soft» 0,15mm

Kandinsky's paintings are the thoughts incarnation. The Artist proves that the freedom of shapes and vibrancy of colors are the independent mind expression.

PICASSO TOOTHBRUSH

Toothbrush «Picasso»
Abstraction brush collection
12+
«soft» 0,15mm

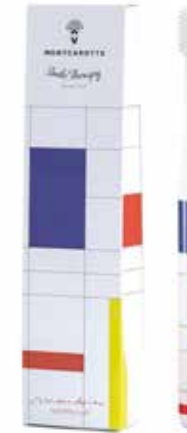

By fusing geometric objects and human figures in his works, the artist teaches us to appreciate the intrinsic value of our own independent creative thinking.

ITTEN TOOTHBRUSH

Toothbrush «Itten»
Abstraction brush collection
12+
«soft» 0,15mm

An absolute pioneer, Johannes Itten demonstrated in his "Art of Color" that the subjective experience and objective approach create an ultimate harmony between the modernism of science and the romanticism of alchemy.

MONDRIAN TOOTHBRUSH

Toothbrush «Mondrian»
Abstraction brush collection
12+
«soft» 0,15mm

In his works combining a spatial grid of free-flowing lines and rigid colors, the Artist achieves dynamic balance.

High-tech «SMART» bristles are made of POLYAMIDE. Polyamide does not absorb moisture and retains its shape twice as long as polyester. The «SMART» bristles help to achieve the maximum smooth enamel surface and the desired whiteness. Perfectly rounded bristle fibers thoroughly polish the enamel without irritating the gums. Fiber thickness: 0.15 mm Total number of bristles: 1,200

KIDS GELS COLLECTION

GREEN APPLE KIDS TOOTH GEL

Green apple
Kids tooth gel
0+

Transparent tooth gel Green Apple with natural taste and flavor of juicy apples grown in organic gardens of Trentino.

Contains: Fluoride and calcium strengthen the enamel. Xylitol protects against dental caries. Vitamin E calms and relieves the inflammation of kids' tender gums. SAFE to swallow. INGREDIENTS

Sorbitol, Aqua, Hydrated Silica, Glycerin, Xylitol (9%), Sodium Myristoyl Sarcosinate, Aroma, Sodium Monofluorophosphate 0,08%, Sodium Fluoride (0,03%), Cellulose Gum, Hydrogenated Castor Oil, PEG 90, Calcium Glycerophosphate, Tocopheryl Acetate, Pottasium Acesulfame, Sodium Saccharin, Sodium Benzoate, Citric Acid, C.I. 16035, C.I. 19140

PURE KIDS TOOTH GEL

Pure
Kids tooth gel
0+

Pure Kids Tooth Gel, natural kids tooth product, having transparent pure texture, like a morning dew, was created without aroma compound to be absolutely neutral and hypoallergenic, but 100% effective for the first tooth brushing and kids teeth protection. Do not worry if your child swallows accidentally a small amount of gel. It is totally safe and natural.

THE UNIQUE FORMULA with not AROMA, FLUORIDE, DYES. Contains 10% of XYLITOL - this precise concentration acts as STRONG PROTECTIVE BARRIER against cariogenic factors. SAFE to swallow. WITH NO NEED TO RINSE. The gel stays on the teeth surface protecting against the plaque during the day due to its adhesive power. Transparent and lightly sweet due to natural compound - the xylitol.

Does not contain: fluoride, parabens, silicones, SLS, antiseptics (triclosan), synthetic components (dyes, thickeners, and conservatives), aroma compound, sulfates, artificial petroleum-based products (paraffin, PEG, propylene).

INGREDIENTS

Sorbitol, Aqua, Hydrated Silica, Glycerin, Xylitol (10%), Sodium Myristoyl Sarcosinate, Cellulose Gum, Pottasium Acesulfame, Sodium Benzoate, Citric Acid

MontCarotte Kids Brush Collection's design takes into account the anatomy of children's teeth and tooth brushing technique (for children from 1 year old under adults supervising). Scientifically advanced MontCarotte brushes fiber is produced from the high-tech material polyamide. Every bristle tip is perfectly rounded. "Smart bristle" does not absorb water, minimizing the risk of the milieu bacterial emerging; it is resistant to the deformation and serves three times longer. Bristles have an optimum «soft» rigidity and do not irritate delicate children gums and gently polish children vulnerable teeth enamel. The special height of the bristles, equal to 7.6 mm, makes them effective and totally safe during the brushing. The brush head of ideal shape allows cleaning well both baby teeth and molars of bigger size. The handle is made of the hypoallergenic plastic with rubber elements ensuring no-slip fixation in children's hand and quality brushing.

ORAL HYGIENE PRODUCTS FOR TEENAGERS AND ADULTS

TEENS
TOOTHPASTE
BUBBLE GUM

Teens
Toothpaste
Bubble Gum 7+

MontCarotte TEENS Toothpaste has been developed to clean and protect teeth from tooth decay, stop inflammatory periodontal diseases and bleach enamel to natural white. Provides fresh breath and a long-lasting clean teeth effect.

Can be used by adults and children over 7 years old.
Specially recommended for patients with History of active caries or caries
Orthodontic appliances
Low brushing skills
Diets high in sugar
ADHD

The unique formula of the toothpaste provides a permanent teeth brightening effect while strengthening the enamel and preventing the formation of plaque. This toothpaste dissolves plaque and promotes protection against tooth decay, while also providing a permanent whitening effect.

INGREDIENTS
Dicalcium Phosphate Dihydrate, Aqua, Sorbitol, Glycerin, Dicalcium Phosphate, Sodium Cocoyl Glutamate, Hydrated Silica, Cellulose Gum, Aroma, Erythritol, Sodium Monofluorophosphate, Sodium Fluoride, Lysozyme, Dextranasi, Vp/Va Copolymer, Cetylpyridinium Chloride, Potassium Acesulfame, Propylene Glycol, P-Anisic Acid, Sodium Benzoate, O-Cymen-5-Ol, Ethylhexylglycerin, Mica, Gelatin, Acacia Senegal Gum, Butyrospermum Parkii (Shea) Butter, Citric Acid, Ci 73360, Ci 77891

Chlorhexidine
Digluconate 0.15%

First aid for people undergoing:
Implant treatment
Peri-implantitis
Periodontal surgery treatment
(transplantation, sinus lifting, directed
bone regeneration, gingival curettage)
Orthodontic appliances
Dentures
Intense dental hygiene procedure
After surgery, prevention of
inflammations

INGREDIENTS
Sorbitol, Aqua, Hydrated Silica, Glycerin,
Xylitol, Peg-32, Cocamidopropyl Betaine,
Aroma, Cellulose Gum, Chlorhexidine
Digluconate, Tocopheryl Acetate, Zinc
Citrate, Sodium Citrate, Pvm/Ma Copolymer,
Phytic Acid, Inositol, Vp/Ca Copolymer,
Butyrospermum Parkii (She) Butter,
Bis(Glycidioxyphenyl)Propane/Bisaminometh
ylbornane Copolymer, Gelatin, Acacia
Senegal Gum, Xanthan Gum, Aluminium
Hydroxide, Phenoxylethanol, Benzoic Acid,
Dehydroacetic Acid, Potassium Acesulfame,
Sodium Benzoate, Limonene, C.I. 45380,
C.I.145410, C.I. 47005

INOSITOL
and GRAPEFRUIT
SEED EXTRACT

Chlorhexidine
Digluconate 0,30%

TOOTHGEL BANDAGE RAPID 30 RED
GRAPEFRUIT
Emergency treatment for irritated gums.

Powerful protection against bacterial plaque
and tartar.
Rapid action: 30 sec

USE
Target action on damage area
Long term therapeutic effect EMERGENCY
aid for people undergoing

Limonene, C.I. 16035

RAPID EMERGENCY
TREATMENT
DENTAL KIT

includes 5 products

DENTAL SURGICAL KIT FOR
PATIENTS

Dental Kit for inflammation-preventive
treatment of oral cavity before and after
surgeries is a clinically tested
combination of antibacterial products for
preventive treatment of inflammations in
the oral cavity.

It is recommended that patients use the
RAPID products before dental surgeries
and also during the especially acute
initial period after surgical or implant
treatment or periodontal therapy causing
inevitable damage of periodontal tissues.
The kit will help prevent complications,
promote faster healing of the soft tissue
and ensure a high-status oral hygiene for
patients. RAPEFRUIT Chlorhexidine Digluconate 0.25%,
